To Whom It May Concern

Subject: Consultant Appointment for BRC Packaging implementation

This letter confirms that Patagonflex appointed the services of Adel Stander at Knowledge Culture to assist with the implementation of a integrated food safety and quality system for the manufacturing of food contact packaging materials.

This will include the design and documentation of an integrated system for the management of the product and processes of Patagonflex based on food safety and quality parameters as set out in the Global Standards (BRC) packaging standard issue 5.

- Gap assessment: Document review
- Review of current documentation and alignment with standards requirements
- Set up of action plan to complete documentation of system
- Training of staff on applicable processes and records
- Assessment of implementation by means of an internal audit of the system

The project started in September 2017 and will be finished 31 October 2018.

Thanking you.
Sincerely,

Adel Stander
